 Double Insulation

 Dust Collecting

Finishing Sander

Model BO3700

Makita's new finishing sander Model BO3700 offers perfect surfaces and the finest finish as well as comfortable operation and clean working environment.

NEW

Makita Corporation

3-11-8, Sumiyoshi-cho, Anjo, Aichi 446-8502, Japan

PRINTED IN JAPAN Z13964-2 2000-5

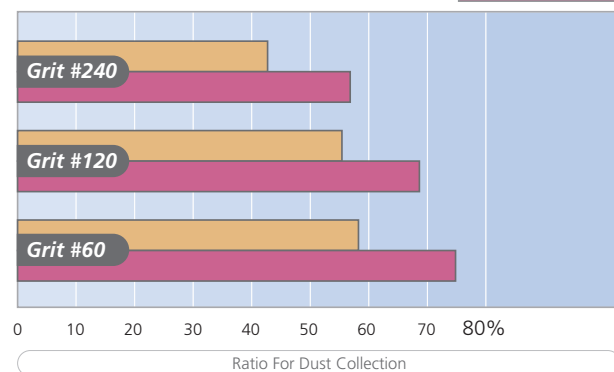

Pursuit of a lower vibration and a better handling has produced the best user-friendly finishing sander.

- The lowest vibration in this class of the finishing sanders assures a reduced fatigue of operator.
- Integrated dust extraction through pre-punched sand paper and sanding plate for clean working environment.

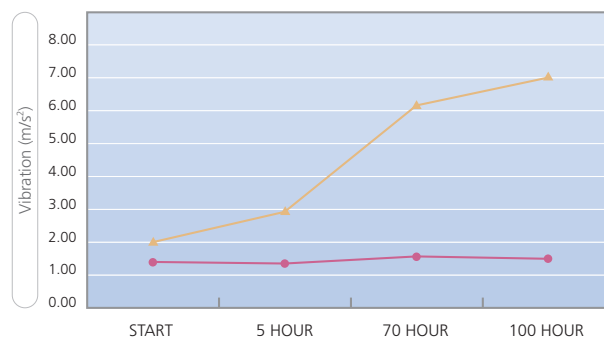

High rate for dust collection

Comparison Chart For Vibration

Competitor Tool
Makita BO3700

1. Ergonomic Grip Handle

Large and round top for comfortable grip and easy control even with one-hand.

2. Large Clamping Lever

For quick and easy changing of sanding paper.

3. Large Trigger Switch

Convenient large trigger switch for easy and smooth operation.

4. Easy connecting with vacuum cleaner

Can be connected to ø 28 mm hose without any attachment.

5. Sturdy Aluminum Foot

4 sturdy aluminum feet assure the longer tool life. Thanks to a newly designed construction in foot, the vibration can be achieved to the lowest level in this class of the sanders.

6. Hook and loop type pad

Hook and loop type pad available as an optional accessory. The base pad can be replaced simply by unscrewing and screwing 4 screws.

7. Through-the-Pad Extracting System

Efficient integrated dust extraction through pre-punched sand-paper and pad (8 holes) to the dust bag attached to the rear for dust-free work.
