

Optimum weight balance for easy handling

Contact arm mechanism + Low reaction force mechanism

LED job light

LED warning lamp for Battery capacity

Battery fuel gauge

(DPT353 only)

■ Depth Adjustment

■ Anti-dry fire mechanism

■ Ergonomically designed grip

Cordless Pin Nailer

DPT353

PT354D

reaction
40% Down
compared to our predecessor model

Low reaction force mechanism

prevent an incomplete nailing without pushing down the pin nailer tightly.

DPT353

Work volume on a single full battery charge

about **5,300** staple

PT354D

Work volume on a single full battery charge

about **1,000** staple

Comfortable operation + Beautiful finish

Counter Weight Mechanism

While hammer is pulled backward, weight moves forward.

Hammer drives a pin nail into workpiece at a stroke and simultaneously weight moves backward. This unique mechanism reduces reaction at firing.

Nose tip designed to provide better visibility

Fires both vertically and horizontally

Excellent corner firing

Redesigned bolt position enables to fire at very close to the wall.
