

Satisfy Professional's Needs

# Concrete Planer PC5001C / PC5000C 125mm (5")

Photo: PC5001C

**Capable of planing  
flush to corners**

Photo: PC5000C

# Most Suitable for Planing Concrete

# Powerful 1,400W motor provides efficient planing operation.

**Easy to install/ remove dust bag** can be set in place simply by sliding over dust port.

**Electronic control allows for use of powerful 1,400W motor.**

- Constant speed control
- Soft start suppresses start-up reaction.
- Electronic current limiter protects motor from overload.

**LED power light** to indicate Anti-restart function

- services as a pilot lamp.
- Anti-restart function is activated with blinking red light.

**Rubberized Soft Grip** provides more control and reduced fatigue.

**5m Power supply cord**

**Easy-to-operate large type trigger switch**

**Auxiliary Base** for smoother planing (PC5001C only)

**Capable of planing flush to corners**

Able to plane flush to corners by removing dust cover cap (PC5000C) dust cover cap and front roller section (PC5001C)

**PC5000C**  
**PC5001C**

**Front Roller** adjusts planing depth. (PC5001C only)

## Efficiency of concrete grinding

**Test conditions :** Using 125mm (5") Offset diamond wheel ground a concrete plate continuously for 10 minutes and measured the amount of the removed material.

Numbers in the charts above are relative values when setting Competitor "B" capacity as 100. It may differ under some conditions.

## Accessories

### Offset Diamond Wheel

for finish work  
(Standard Equipment of PC5001C)  
Part No. B-12289

### Offset Diamond Wheel

for rough work  
(Standard Equipment of PC5000C)  
Part No. B-12295

## Concrete Planer

- Double Insulation
- Constant Speed
- Soft Start
- Dust Collecting
- Carrying Case
