Excellent

in Heavy Duty Applications

Great for Heavy-Duty Jobs

Designed with the concept of "Easy Operation and Maintenance"

Ergonomically Positioned Loop Handle

Increases maneuverability and makes horizontal cutting easier.

Large Separate-type Metal Spike Bumper

Creates a stable pivot on wood for steady cutting.

Large View Window of Oil Tank

Allows operator to easily check oil level.

Increased Oil Tank Capacity up to 140ml

Front and Rear Handles with Rubberized Soft Grip

Kick-back brake

Automatic Chain Oiling

Chain blade: 91VG

Toolless Blade Change and Adjustment

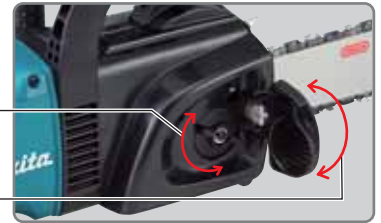

Large switch lever with Soft Start and Current Limiter

- Soft start function minimizes start-up shock.
- Current limiter protects motor from burn-out by cutting off the power to motor when overloaded.

Without removing sprocket cover, blade change and adjustment can be done.

Simply turn this knob to adjust the tension of chain blade.

Merely by turning this lever, guide bar and chain blade can be replaced.
